Wednesday Challenge Form

Group Members: Tyler, Jadyn, and David

Problem Statement: Design the tallest structure with Grahm crackers, marshmallows, and pretzel sticks on a sketchup, then Get another sketchup from another group and build it as best as Possible.

Approach: Our group thought that we could just take graham Crackers and then just stack squares of them into a tower. It's Simple and easy, all we have to do is just g get some more graham crackers from the store .

Solution: the solution was to make the structure
Is for somebody to make

Lessons Learned: make sure that
Your partner brings what needs to be brought
