## Wednesday Challenge Form

Group Members: Half of the class

**Problem Statement:** Get a marble into a bag approx. 15 yds away with half pieces of PVC pipe and have all teammates let marble role across their part of the pipe at least once.

**Approach:** Our teams approach was to stand in a line towards the Bag. Then we would slowly let the marble roll down our half piece of the pipe slowly, while our other team mates who have let the marble Pass their piece of pipe g and quickly give it to the next person who Does not have a piece so the marble can go down towards the bag.

**Solution:** This approach worked and we got our Marble into the bag first.

**Lessons Learned:** Our group learned how to use Team work to get a task accomplished.
